

# CONVEYORS, INC.

## What do we do?

Conveyors, Inc. manufactures bulk material handling equipment including complete engineered conveying systems as well as a vast inventory of CEMA screw conveyor components. With over 50 years of manufacturing history, we have established a solid reputation for providing high quality conveying equipment including screw conveyors, screw feeders, live-bottom feeders, vertical screw conveyors and feeders as well as hoppers, silos, mixers, gates, and blenders.

## What can we provide?

Along with standard conveying components, Conveyors, Inc. also provides our customers with the full line of bulk material handling equipment such as bucket elevators, drag conveyors, shaftless screw conveyors, flex-wall belt conveyors as well as control devices such as rack & pinion gates, slide gates, diverter fittings, silos, ducts and chutes.

## We have experience.

Conveyors, Inc., for over 5 decades, has established a superior reputation for providing high quality equipment and dependable levels of service. As a result, Conveyors, Inc. is a complete source for bulk material handling equipment and components in many types of industries.

## Our History

Conveyors Inc, a family owned and operated company, was organized in 1974 and developed over the past 50 years. Conveyors, Inc. utilizes more than 200,000 square feet of manufacturing space and over 200 shop personnel to supply the highest quality bulk material handling equipment available. In order to provide the most economical and efficient delivery of our equipment we are centrally located just south of the Ft. Worth-Dallas metroplex in Mansfield, Texas. Many Industries such as the Paper Pulp and Wood by-products, Agricultural, Wastewater Treatment, Cement and Aggregate, Chemical Development, Food Processing and Rendering, along with the Recycling Industry take advantage of our superior bulk material handling equipment design and manufacturing.

We take pride in offering the highest quality products and services at the most competitive prices. For the majority of 5 decades, we have developed our business based entirely on customer satisfaction and by "word of mouth" to maintain and gain new customers. In order to make Conveyors, Inc. equipment more available and to provide improved customer services, we are developing a network of sales representatives throughout the United States, Canada, Mexico and the Carribean. Our experienced sales and engineering staff are waiting and prepared to help you with all your material handling equipment needs.
