

METAL FABRICATED BUCKETS

- **Strength in Every Bucket: Fabricated Steel Buckets**

Our mild steel elevator buckets are the epitome of durability. Crafted in-house, these buckets are designed to withstand the toughest material handling challenges. Elevate your operations with confidence!

When you demand toughness and reliability, our mild steel buckets deliver. Trust in our in-house fabrication and elevate your bulk material handling to new heights.

- **Durable and Long Lasting: T304SS, AR235, and AR400 Buckets**

When abrasion is your concern, our AR235 and AR400 steel buckets are your answer. Engineered to stand up to the harshest materials, they ensure your operations stay productive.

Maintain impeccable cleanliness in your material handling processes with T304SS stainless steel buckets. Elevate your operations while meeting the highest sanitation standards.

- **Customize Your Lift: Elevator Buckets, Shapes and Sizes**

With a variety of styles including AA, AA Diggers, AC, C, MF, and SC, our elevator buckets are tailored to your unique needs. Get the perfect fit for your material handling application!

Conveyors Inc. can fabricate customer bucket designs as well. Utilizing precision and craftsmanship, and with just a few specific dimensions, we can take your designs and bring your project to life!
